Twelve people are employed by us to look after your wants, and every one of them understands their business. We have no side lines. One line of business is just as important as the other—Hardware, Plumbing and Sheet Metal. We are able to give you better satisfaction by having all three lines than if we only had the one, because, when you build a house you have to have all three and by supplying you with your hardware, plumbing and sheet metal we can save you money over the one who can only sell the one thing.
